To

Secretary to the Government of
His Highness the Maharaja of Mysore,
Development Department, Bangalore.

SIR,

I have the honour to submit for the orders of Government the question of royalty on quartz and felspar. These Minerals have been acquiring commercial importance latterly and it is considered necessary that definite rates of royalty should be fixed in respect of them specially as they are used in industries. At present under the rules in force it is 5% on the sale value at pit's mouth or on surface. The power of converting this to an equivalent charge per ton is reserved to Government; and I now suggest that it may be fixed at 8 annas per ton. This was also the view of Mr. Sampat Iyengar, my predecessor in office, who has left a note to this effect. The favour of early orders is requested.

I have the honour to be,
Sir,
Your most obedient servant,

A.M.Sen

Offg. Director,
Mysore Geological Department.
